The screenshot shows the NEC WebConnect interface for a radio configuration. The main page is titled 'Matching - Current Matching' and contains several sections:

- Radio:** A table showing radio specifications.

	00001	00002
Serial	145	145
Power	145	145
TS Power (dBm)	+16.0	+16.0
RF Level (dBm)	-64.1	-67.3
CR Power (dBm)	-66	-68
CR Power Supply (V)	---	---
CR Matching	---	---
CR Frequency (MHz)	---	---
TS Modulation	1122040	1122040
RF Modulation	1122040	1122040
RF Power (dBm)	---	---
CR Modulation	---	---
- Temperature:** A table showing temperature settings.

	Min Card
CR Temperature (°C)	55.0
- SPF Optical Power:** A table showing optical power settings.

	Power1	Power2	Power3	Power4
SPF Tx Power (dBm)	---	---	---	---
SPF Rx Power (dBm)	---	---	---	---
- FAN Speed:** A table showing fan speed settings.

	Rev 1
Fan Speed1 (rpm)	6300

A pop-up window in the top right corner displays session information:

- Session ID: 00001
- Session Name: 00001
- Session User: 00001
- Session Password: 00001
- Session IP: 172.17.234.253
- Session Port: 8080
- Session User: 00001
- Session Password: 00001
- Session IP: 172.17.234.253
- Session Port: 8080
- Session User: 00001
- Session Password: 00001
- Session IP: 172.17.234.253
- Session Port: 8080
